CROSSTABS

Voter Attitudes Towards Clean Energy Tax Credits

By Connor Sandagata

February 2025

Rainey Center

Rainey Center fielded an online survey over web panels of 1383 respondents from February 16-17, 2025 and weighted to education, age, gender, race, and 2024 election results. The margin of error is +/- 3.1.

Congress is currently considering policies to extend the 2017 tax cuts. To do this, they must cut other spending and tax credits. Below are some tax credits they are considering ending. For each say whether you support keeping or ending the tax credit. Tax credits for companies that build or produce clean electricity, including solar, wind, nuclear, and battery storage.

	All	18-44	45-64	65+	Female	Male
